Description

Starting @ \$5,000 - Please call for availability and pricing as pricing can fluctuate

Underbody boxes are not included in pricing - pictures may show optional equipment - please call for availability for your specific vehicle

Bradford Built Steel Workbed

This is the classic truck bed we started out with. The goosneck hitch, receiver hitch, and hinged side rails are all standard. We also include stake pockets, LED lights all around, mudflaps and wiring harness. This bed can be outfitted with optional toolboxes to make this a very effective upgrade to your truck. We put all steel beds through a rigorous paint process that includes blast, acid etching, zinc primer and powder coating that allow us to offer a 5 year paint warranty.

Features may include:

4" Flip Down Rails Extended Skirting

Most of our models come standard with 4" hinged siderails. These rails have brackets at the back and at the front for a lumber tailgate. The rails are also outfitted with at least two flush mounted tie down rings for securing loads.

The deeper skirting of the Workbed gives the bed a more 'finished' look.

Gooseneck and Receiver Hitches

We build every bed with a 30,000# rated Gooseneck Hitch. Also standard on every bed is a 2" receiver hitch.

Formed Headache Rack

Our formed Headache Rack is a signature look of our beds. This feature comes standard with stop and reverse lights as well as side markers. You will for sure be seen with these added lights.

Stake Pockets

Stake Pockets come standard in the Workbed. They are great for securing a load or for custom stake sides needed for you application.
